

Hit a Home Run!

Vinyl Baseball

The Lakeview High School baseball team wanted to raise awareness about drug use and drug addiction that was affecting many teenagers in the area. They decided to wear purple wristbands to honor those affected by drug addiction. They also teamed up with a local rehab center. The rehab center purchased soft vinyl baseballs with their contact information and the Lakeview school mascot printed on one side. Printed on the second side was "We team up to beat drug addiction." The baseballs were passed out at all the Lakeview baseball games and at a school rally on drug awareness.

Synthetic Leather Baseball

A youth baseball team in the Cleveland area was just about to finish their summer season and were looking for gifts to give out to all their players. They wanted to pass out something that could be very personal to each player, and something that they will keep for years to come. The coaching staff decided to go with Synthetic Leather Baseballs with a full color

image of each player on them. The rubber core made it safe for kids to play with and the full color printing let them customize each ball. Parents and grandparents were able to hold on to these baseballs as a piece of memorabilia that they will always cherish.

Mini Bat- Louisville Slugger

Each year at the Bartlett Company's annual picnic, employees are rewarded with a personalized Louisville Slugger mini bat. The bats feature the employee's name along with a personal message of appreciation. Many employees take pride in the number of bats/years of service and proudly display them at work or home.
