USA Made Christmas Ornaments

Plans were underway for county hospital's annual holiday ball as a fundraiser for the hospital's breast cancer program. As a thank you to the sponsors the hospital purchased pink shatterproof USA made ornaments as the table favor for each guest. The ornament had the hospital's logo on one side and the pink ribbon logo on the on the second side. They were pleased that the ornament was made in the USA and would be a lasting reminder of the program.

For a breast cancer awareness 3 day walk for a cure, organizer's in Cambridge purchased pink fan-ta-sticks. The fan-ta-sticks are re-inflatable and re-usable noisemakers. At the beginning of the event, each participant was given a pair of pink fan-ta-sticks. As the participants walked around the route they banged their fan-ta-sticks together to create fun and excitement. The noise from the fan-ta-sticks help raise awareness of the march and attracted curious spectators, many of whom became generous donors. Since the fan-ta-sticks are re-usable the participants were able to take them home with them and use them at other events in the future.

Mini Vinyl Basketballs

River High School's homecoming parade is held every year on the second weekend in October. Since October is Breast Cancer Awareness Month, the girls' basketball team decided that their theme would be Breast Cancer Awareness. They decorated their float in pink and dressed in pink attire. They were looking for something to throw to the crowd from the float. They decided on pink mini vinyl basketballs, which are very safe to throw out to crowds as they are made of a soft vinyl material.

On the basketballs, they printed the school name and mascot along with an outline of the pink ribbon. At the homecoming football game, the local Breast Cancer Awareness group set up a booth where people could donate. They raised over \$1,500 at the game.
